

CITY OF MONMOUTH, COUNTY OF POLK

STATE OF OREGON

A Resolution Setting Rates and)
Charges for Electric Utility Service)
and Repealing Resolution 1758.)

RESOLUTION NO. 1801

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MONMOUTH,
OREGON, AS FOLLOWS:

Section 1. The Electric Utility Service rates, charges and regulations set forth
in Schedules 1-6, which are attached hereto and by this reference incorporated herein,
are hereby adopted.

Section 2. This Resolution shall be effective as of May 15, 2015.

Section 3. Upon the effective date of this Resolution, Resolution 1758 is
repealed.

Adopted by the City Council and approved by
the Mayor: June 16, 2015.

ATTEST:

John E. D. Oberst, Mayor

Phyllis L. Bolman, City Recorder

RESIDENTIAL RATE, SCHEDULE NO. 1
CITY OF MONMOUTH

Applicability:

Applicable to all domestic uses for residential customers.

Character of Service:

Single-phase, sixty hertz, alternating current at a nominal 120/240 volts.

Monthly Charges:

Basic customer charge: \$9.82

Energy charge: All kWh @ 6.96 cents per kWh

Minimum Bill:

Same as basic customer charge.

Delivery Point:

1. The point of attachment shall be that point of the customer's premises nearest the applicable service facilities as determined by the City.
2. Service shall be supplied to the entire premises through a single delivery and metering point.
3. Separate points of delivery to the same customer shall be separately metered and billed.
4. Individual single-phase motors larger than 5 horsepower may be connected only with the written permission of the City.

Terms of Payment:

The foregoing rates are net and are due and payable within 15 days from the date of the bill. Failure to receive a bill shall not release the customer from liability for payment.

General Terms and Conditions:

Service under this classification is subject to the general rules and regulations of the City's Municipal Power and Light System.

Effective:

May 15th, 2015

GENERAL SERVICE RATE, SCHEDULE NO. 2
CITY OF MONMOUTH

Applicability:

Applicable to all commercial customers.

Character of Service:

1. Single-phase, sixty hertz, alternating current at a nominal 120/240 volts.
2. Three-phase, sixty hertz, alternating current at a nominal 120/240 volts. 120/208 volts or 480 volts when available from existing facilities.

Monthly Charges:

Description:	<u>Single Phase</u>	<u>Three Phase</u>	
1. Basic customer charge:	11.70	21.12	dollars
2. Energy charge: (First 15,000 kWh)	7.30	7.30	cents/kwh
(Next 35,000 kWh)	7.30	6.16	cents/kwh
(Over 50,000 kWh)	7.30	4.45	cents/kwh
3. Demand Charge:			
First 25KW of Billing Demand	0.00	0.00	dollars/KW
Over 25 KW of Billing Demand	8.45	8.45	dollars/KW

Minimum Bill:

Same as basic customer charge.

Primary Service Discount:

For customers taking service at the primary distribution voltage and who own and maintain the transformers, switches, protective equipment, and other items necessary for service, the above rate shall be reduced by 5 percent.

Determination of Demand:

The demand shall be the maximum average kilowatt load used by the customer for the period as indicated by a demand meter.

Adjustment of Demand for Power Factor:

Demand charges will be adjusted to correct for average power factors lower than 95%. Such adjustments will be made by increasing the measured demand 1% for each 1%, or major fraction thereof, by which the average power factor is less than 95%. The formula for determining the average power factor is given as follows:

kilowatt-hours

Average power factor =

$$\sqrt{\frac{\text{(Kilowatt -) }^2}{\text{(hours) } + \frac{\text{(Reactive Kilovolt -) }^2}{\text{(Ampere-hours) }^2}}}$$

The power factor may be determined by periodic measurement or at the option of the City by installation of suitable meters.

Delivery Point:

1. The point of attachment shall be that point of the customer's premises nearest the applicable service facilities as determined by the City.
2. Service shall be supplied to the entire premises through a single delivery and metering point.
3. Separate points of delivery to the same customer shall be separately metered and billed.
4. Individual single-phase motors larger than 5 horsepower may be connected only with the written permission of the City.
5. Individual three-phase motors larger than 100 horsepower with across-the-line starting may be connected only with the written permission of the City.

Terms of Payment:

The foregoing rates are net and are due and payable within 15 days from the date of the bill. Failure to receive a bill shall not release the customer from liability for payment.

General Terms and Conditions:

Service under this classification is subject to the general rules and regulations of the City's Municipal Power and Light System.

Effective:

May 15th, 2015

IRRIGATION RATE, SCHEDULE NO. 3
CITY OF MONMOUTH

Applicability:

Applicable to pumping operations for irrigation and/or drainage, including incidental seasonal uses of water.

Character of Service:

Single-phase and three-phase, sixty hertz, alternating current. The City reserves the right to specify the voltage supplied under this schedule.

Monthly Charges:

Basic customer charge:	\$12.56
Horsepower charge:	
Summer (March-October)	\$9.13 per horsepower
Winter (November-February)	No charge
Energy charge:	
Summer (March-Oct)	All kWh @ 4.22 cents per kWh
Winter (November-February)	All kWh @ 6.85 cents per kWh

Minimum Bill:

Same as basic customer charge.

Seasonal Disconnection:

Seasonal disconnection available upon request at no charge to customer.

Determination of Horsepower:

Horsepower for billing purposes shall be the motor manufacturer's nameplate rating of horsepower output, except that the City may elect to determine rated horsepower as calculated from actual measurement of power input during maximum normal use.

Adjustment of Horsepower for Power Factor:

Horsepower charge will be adjusted to correct for average power factors lower than 95%. Such adjustments will be made by increasing the measured horsepower charge 1% for each 1%, or major portion thereof, by which the average power factor is less than 95%. The power factor may be determined by periodic measurement or, at the option of the City, by installation of suitable meters.

Delivery Point:

1. Separate points of delivery to the same customer shall be separately metered and billed.
2. Individual single-phase motors larger than 5 horsepower may be connected only with the written permission of the City.
3. Individual three-phase motors larger than 100 horsepower with across-the-line starting may be connected only with the written permission of the City.

Terms of Payment:

The foregoing rates are net and are due and payable with 15 days from the date of the bill. Failure to receive a bill shall not release the customer from liability for payment.

General Terms and Conditions:

Service under this classification is subject to the general rules and regulations of the City's Municipal Power and Light System.

Effective:

May 15th, 2015

STREET LIGHT RATE, SCHEDULE NO. 4
CITY OF MONMOUTH

Applicability:

Applicable to service for street lighting systems, including street lights, signal systems, and roadway and park lighting. Minimum term of agreement of not less than one year.

Character of Service:

Single-phase, sixty hertz, alternating current at a nominal 120/240 volts.

Monthly Charges:

Energy charge: All kWh @ 13.69 cents per kWh

Minimum Bill:

The minimum shall be \$4.89 per lamp per month.

Delivery Point:

Delivery may be made at one or more points as determined by the City.

Metering:

1. Each delivery point may be metered separately, or each type of lighting may be metered independently.
2. If more than one meter is used, the reading shall be consolidated for billing purposes.
3. The City may, at their discretion, meter a representative unit or units of each type of light and determine total usage by multiplying the meter reading by the total number of lights divided by the number of lights metered.
4. When a meter reading is found to be in error, the consumption for billing purposes shall be computed for the unit rating plus 5 percent for losses, and then multiplied by the number of hours of use.

Terms of Payment:

The foregoing rates are net and are due and payable within 15 days from the date of the bill. Failure to receive a bill shall not release the customer from liability for payment.

General Terms and Conditions:

Service under this classification is subject to the general rules and regulations of the City's Municipal Power and Light System.

Effective:

May 15th, 2015

SECURITY LIGHT RATE, SCHEDULE NO. 5
CITY OF MONMOUTH

Applicability:

Applicable to all customers for dusk to dawn outdoor lighting.

Character of Service:

Single-phase, sixty hertz, alternating current at a nominal 120/240 volts.

Monthly Charges:

Type of Light	Wattage	Lumens	Ownership Maintenance and energy by City	Ownership Maintenance by City; Customer Provides Energy
High Pressure Sodium	70	5,800	\$9.35	\$8.10
High Pressure Sodium	100	9,500	10.83	9.25
High Pressure Sodium	150	16,000	13.46	11.07
High Pressure Sodium	200	22,000	17.58	13.92
High Pressure Sodium	250	27,000	19.17	15.18
High Pressure Sodium	400	50,000	25.86	19.29

Minimum Bill:

The minimum shall be the monthly charge for the installation.

Delivery Point:

1. The City will furnish, install, operate and maintain the lighting installation at a mutually agreeable location. Individual lamps will be replaced on burnout, as soon as reasonably possible after notification by the customer, during the normal work week, and at no additional charge to the customer.
2. If a pole, other than an existing pole is required, the City will install the pole. The monthly rate to the customer will be \$1.88 for a wooden pole and \$5.65 for a metal pole.
3. The complete lighting installation shall remain the property of the City. The customer will protect the lighting installation from deliberate damage. The customer will allow the City free access to their property to maintain and inspect the lighting equipment.

Contract Requirements:

Customers under this rate will be required to execute a contract for a minimum term sufficient to allow the City to recover the cost of investment.

Terms of Payment:

The foregoing rates are net and are due and payable within 15 days from the date of the bill. Failure to receive a bill shall not release the customer from liability for payment.

General Terms and Conditions:

Service under this classification is subject to the general rules and regulations of the City's Municipal Power and Light System.

Effective:

May 15th, 2015

COGENERATION AND SMALL POWER PRODUCTION RATE
SCHEDULE NO. 6
CITY OF MONMOUTH

Applicability:

Applicable to any Seller who owns or operates a qualifying facility with a nameplate capacity of 100 KW or less.

Character of Service:

The voltage, phase, frequency and power factor for the delivered power shall be specified by the City.

Purchase Rate:

Energy payment – Bonneville Power Administration Avoided Cost for applicable year or in accordance with the City's Net Metering Policy.

Contract Requirements:

Sellers under this rate will be required to execute a contract with the City.

Interconnection Facilities:

1. The Seller shall furnish, install, operate and maintain in good order and repair and without cost to the City such switching equipment, relays, locks and seals, breakers, automatic synchronizers, and other control and protective-apparatus as shall be designated by the City as being required for the operation of the qualifying facilities in parallel with the City's power system.
2. The Seller shall provide a lockable disconnect switch to isolate the Seller's qualifying facility from the City's power system. This switch shall be accessible to the City at all times, and the City shall have the right to lock such disconnect switch open whenever the City, in its sole discretion, determines that the qualifying facility adversely affects the City's power system.

Interconnection Costs:

Any costs of interconnection shall be the responsibility of the Seller. Interconnection costs which may reasonably be incurred by the City shall be assessed against the qualifying facility.

Definitions:

1. "Qualifying facility" means a co-generation facility or small power production facility as defined in OAR 860-29-010.
2. "Seller" as used herein means any individual, partnership, corporation, association, governmental agency, political subdivision, municipality or other entity that owns or operates a qualifying facility and sells energy to the City under this Schedule.

General Terms and Conditions:

1. The Seller shall indemnify and hold the City harmless from any and all liability arising from the operation and interconnection of the qualifying facility.
2. Service under this classification is subject to the general rules and regulations of the City's Municipal Power and Light System.

Effective:

May 15th, 2015
